*Whereas*, the following motion was passed in the fall semester of 2019,

*Whereas*, Deans are an essential part of the College and should have a positive working relationship with the students they represent,

*Whereas*, having a student advisory board serves as a way for students to advocate for the interests of themselves and their peers,

*Whereas*, the College of Business has brought to Winona State a successful template for an advisory board and has implemented this into their program,

*Whereas*, the C.O.B. advisory board has shown to improve communication with administration, encouraged resolving issues between students and faculty, and has lead to an overall improvement of the student experience,

*Whereas*, students are open and willing to advise and advocate for their education, as well as their experience in their college through an advisory board,

*Therefore be it resolved*, WSUSS strongly encourages the implementation of a Dean's Advisory Board composed of students within the college they represent by the fall semester of 2022.

*Therefore be it further resolved*, the 2021-2022 WSUSS reaffirms the motion from the 2019-2020 WSUSS.
