In Support of Voter Registration

*Whereas*, college students and young voters' futures are directly affected by those that are elected into political positions.

*Whereas*, Minnesota has the highest voter turnout in the nation, yet turnout among young people and college students is lower than other groups.

*Whereas*, in order to register all eligible students to vote, voter registration must be easily accessible to all students.

*Therefore be it resolved*, WSUSS will support ongoing collaboration between the Minnesota State system, WSU President, and all student groups on campus to register every eligible student to vote.

*Therefore be it further resolved*, WSUSS will send out an all-student email every fall semester of an election year regarding voter registration.

*Therefore be it further resolved*, WSUSS encourages the WSU President and Student Senate President to work together to establish a system for automatic voter registration for every student at Winona State University by fall semester of 2022.

*Therefore be it further resolved*, the WSUSS President and the WSU President present the progress of their plan for automatic voter registration to WSUSS once a semester during fall 2021 and spring 2022.

A handwritten signature in black ink that reads 'Benjamin Ellgen'.
