Whereas, students enrolled in winterim coursework pay banded spring term fees for their winter courses,

Whereas, paying for winter as well as spring term fees is unsustainable and infeasible for students,

Whereas, students taking spring courses receive the same services over winterim as students taking winter term classes,

Whereas, students do not want to make unnecessary purchases and pay more money for the same services,

Therefore be it resolved, WSUSS recommends reducing the Winter term fees for the 2023 school year and beyond.
